5. STRIKE 3 WORLD CHAMPIONSHIP

Eligibility

This tournament is open to all TBA Members.

Entry

The first sixty-four (64) entries received, less any spots held for whatever reason, will be accepted into the finals.

Finals

Stage 1- Round Robin Pool Stage

Players are placed into eight (8) randomly selected pools of eight (8) players and play one Strike 3 match against each player in their pool; seven matches in total. Based on total wins within their pool over the seven matches played, four players will progress from each pool to a Top 32 Knockout Finals Stage. If there is a tie in any pool for the final position to progress from Stage 1, the player/s to move to the next stage will be determined by the fewest amount of shots taken to win their pool matches. If a tie remains, one Strike 3 match between the players, regardless of how many are tied, will determine the player/s who progress to the Knockout Finals Stage.

Stage 2- Knockout Finals Stage

Players are seeded 1st to last, based on the number of wins and shots taken in the Round Robin Pool Stage. In the instance of a tie on both wins and shots taken, the player's names will be 'drawn from a hat' to determine their seeding position. First will play 32nd etc. and players will play two Strike 3 matches.

If one player wins both matches, they automatically move to the next round. If the players are tied one all after the two matches, a Golden Strike will determine the winner. Players will play one frame at a time, alternating lanes, until one player strikes in a frame when the other doesn't to determine the winner. The player listed on the right lane will start this phase of the match.

The winners continue to move through each knockout round until a final is played between the remaining two players to determine the tournament winner. This format will be used for all matches, including the final.
